

# CITY YEAR ALUMNI SURVEY

City Year's remarkable AmeriCorps members and alumni are making a powerful difference in the lives of students. Now a network of 30,000 strong, City Year alumni are increasingly taking on leadership roles in schools and communities, making significant contributions as leaders who can mobilize diverse groups to tackle complex challenges across a range of professional fields. These professions include education, business, law, health, corporate social responsibility, government and public policy.

In 2018, City Year conducted an alumni survey which was delivered to 16,000 alumni and received a 33 percent response rate, which is statistically significant. <sup>1</sup> More than half of the survey respondents graduated from City Year between 2014 and 2017; therefore, the data is most reflective of recent alumni sentiments.
